With Three-Year Sales Growth of 106.3%**

NEW YORK, August 23, 2007 – Inc. today ranked MediNotes Corporation on its first-ever Inc. 5,000 list of the fastest-growing private companies in the country. The Inc. 5,000, an extension of *Inc.* magazine's annual Inc. 500 list, catches many businesses that are too big to grow at the pace required to make the Inc. 500, as well as a host of smaller firms. Taken as a whole, these companies represent the backbone of the U.S. economy.

"The Inc. 5,000 provides the most comprehensive look ever at the most important part of the economy – the entrepreneurial part," said Inc. 5,000 Project Manager Jim Melloan. "The expansion of the list has allowed us to tell the stories of larger companies, older companies, and a wealth of companies in industries like Manufacturing and Construction that are underreported in the business media.

MediNotes Corporation is one of the nation's leading providers of electronic medical record software solutions for small to medium primary care and specialty medical practices. The company was founded over a decade ago by the company's current CEO and President, Donald G. Schoen. "MediNotes started with a very simple principle; take a quality product and back it up with unprecedented service and support, and you will find success. That principle is paramount in everything we do. From the receptionist who answers the phone all the way up through the management team, our clients are our primary focus. We show them how MediNotes can improve the efficiencies in their office, and we guide them through the process, ensuring they get it right the first time."

The 2007 Inc. 5,000, as revealed online at www.inc.com, reported median revenue of \$9.4 million and median three-year growth of 140 percent. Complete information on this year's Inc. 5,000, can be found at www.inc.com/inc5000. The list features a profile for each company, almost all of them written as a result of *Inc.* interviews with management. In addition, the list is searchable according to numerous criteria, including industry, city, state, region, and year founded.
